CS-442

I pledge my honor that I have abided by the Stevens Honor System. - *Eric Atteneburg*

$$1. A^+ = \{A\} \times$$

$$B^+ = \{B\} \times$$

$$C^+ = C \rightarrow \{C\}$$

$$C \rightarrow \{A\}$$

$$C \rightarrow \{CAD\}$$

$$C \rightarrow \{CADB\}$$

$$C \rightarrow \{ABCDE\}$$

$$C \rightarrow \{D\}$$

$$D \rightarrow \{B\}$$

$$CD \rightarrow \{E\}$$

$$C^+ = \{ABCDE\}$$

$$D^+ = \{D\}$$

$$AB^+ = AB \rightarrow \{AB\}$$

$$AB \rightarrow \{ABC\}$$

$$AB \rightarrow \{ABCD\}$$

$$AB \rightarrow \{ABCDE\}$$

$$AB \rightarrow \{C\}$$

$$C \rightarrow \{D\}$$

$$D \rightarrow \{B\}$$

$$AB^+ = \{ABCDE\}$$

$$C \rightarrow \{A\}$$

$$CD \rightarrow \{E\}$$

$$AD^+ = AD \rightarrow \{AD\}$$

$$AD \rightarrow \{ABD\}$$

$$AD \rightarrow \{ABCD\}$$

$$AD \rightarrow \{ABCDE\}$$

$$D \rightarrow \{B\}$$

$$AB \rightarrow \{C\}$$

$$CD \rightarrow \{E\}$$

$$AD^+ = \{ABCDE\}$$

$$BD^+ = \{BD\}$$

Since  $C^+$  is candidate key, any superset ( $AC^+$ ,  $BC^+$ ,  $CD^+$ ,  $CE^+$ ) would be superkey.

Same applies for  $AB$  and  $AD$ .

Candidate keys include:  $\{C, AB, AD\}$

$$2. F \rightarrow \{AD\}, \underline{F \rightarrow \{A\}} \text{ and } \underline{F \rightarrow \{D\}}$$

[Decomposition]

$$\underline{F \rightarrow \{B\}} \text{ by } F \rightarrow \{AD\} \text{ and } AD \rightarrow \{B\}$$

[Transitivity]

$$F \rightarrow \{AB\} \text{ by } F \rightarrow \{A\} \text{ and } F \rightarrow \{B\}$$

[Union]

$$\underline{F \rightarrow \{C\}} \text{ by } F \rightarrow \{AB\} \text{ and } AB \rightarrow \{C\}$$

[Transitivity]

$$\underline{F \rightarrow \{E\}} \text{ by Functional dependencies listed.}$$

Therefore,  $F^+ = \{ABCDE\}$  and now  $F$  is a superkey of  $R$  from

"Armstrong's Axioms".

### 3. Student (StudNo, StudName)

2

$\text{StudNo} \rightarrow \text{StudName}$

$\text{StudNo}^+ = \{ \text{StudNo}, \text{StudName} \}$

Satisfy 3NF? (For  $X \rightarrow Y$ ,  $X$  or  $Y$  has to be super)

$\text{StudNo} \rightarrow \text{StudName} \checkmark$

Satisfy BCNF? (For  $X \rightarrow Y$ ,  $X$  is superkey)

$\text{StudNo} \rightarrow \text{StudName} \checkmark$

Satisfy, therefore, Student (StudNo, StudName) in BCNF.

StudMajor (StudNo, Major, Advisor)

$\text{StudNo}^+ = \{ \text{StudNo}, \text{StudName} \}$

$\text{Major}^+ = \{ \text{major} \}$

$\text{Advisor}^+ = \{ \text{advisor}, \text{major} \}$

$\text{StudNo Major}^+ = \{ \text{StudNo}, \text{Major}, \text{Advisor} \}$  [candidate key]

Satisfy 3NF? (For  $X \rightarrow Y$ ,  $X$  or  $Y$  is SK?)

$\text{StudNo Major} \rightarrow \text{Advisor} \checkmark$

$\text{Advisor} \rightarrow \text{Major} \checkmark$

Satisfy BCNF? (For  $X \rightarrow Y$ ,  $X$  is SK)

$\text{StudNo Major} \rightarrow \text{Advisor} \checkmark$

$\text{Advisor} \rightarrow \text{Major}$  No X since the advisor isn't ckey

$\checkmark \text{StudNo, Major} \rightarrow \text{Advisor}$  StudNo, Major, Advisor

$\& \text{Advisor} \rightarrow \text{Major}$

$\text{Advisor} \rightarrow \text{Major}$

$\checkmark \{ \underline{\text{StudNo}}, \text{Advisor} \}$

$\{ \underline{\text{Advisor}}, \text{Major} \} \checkmark$

BCNF decomposition: StudMajor 1 (StudNo, Advisor)

StudMajor 2 (Advisor, Major)

3.

Stud Course (StudNo, Major, Course No, Chite, InstrucName, Instruc Locn, Grade)

3

A	B	C	D	E	F	G
---	---	---	---	---	---	---

StudNo CourseNo Major is the candidate key.

Satisfy 3NF?

C → DE No

ACB → G Yes ✓

E → F No

Satisfy BCNF?

C → DE No

ACB → G Yes ✓

E → F No

BCNF Decomposition: ABCG, CDE, EF

Final BCNF Decomposition: Student (StudNo, StudName)

StudMajor1 (StudNo, Advisor)

StudMajor2 (Advisor, Major)

StudCourse1 (StudNo, Major, CourseNo, Grade)

StudCourse2 (CourseNo, Chite, InstrucName)

StudCourse3 (InstrucName, InstrucLocn)
